## VistaCam 1203 with InstaVue™

Answer the door from anywhere in the world with the industry's most sophisticated doorbell camera, the VistaCam 1203. Featuring InstaVue secure video presented within one second, pre-recorded replies, in-app ringing, two-way talk, and a live video feed, the VistaCam 1203 doorbell camera lets you see who's at the door and talk with them right from an easy-to-use app.

A 2K 4MP doorbell camera that features 2560 x 1440 resolution combined with HDR and distortion correction, the VistaCam 1203 provides ultra-crisp 2K@25fps images during the day and super-clear night vision images up to 16 feet. A wide angle lens provides expansive 170° coverage of your entryway, giving a clear view of visitors or packages on the ground.

## Key Features

- Easy, DIY installation using existing mechanical and electronic digital chimes
- Offers the option to create custom, pre-recorded "replies" for addressing visitors
- InstaVue presents secure video within 1 sec/local connection, <2 sec/remote connection
- 2-Way Audio with built-in mic and speaker
- Powered by your existing doorbell circuit
- Compatible with Amazon Alexa or Google Assistant
- 2.4GHz and 5GHz Wi-Fi networks
- Anti-theft Design
- Real-time Alerts and Live View
- Motion Detection
- Adjustable Detection Sensitivity
