

ezlo Plus

Comprehensive Home Control

Bring all of your automation devices and virtual assistants within a single network with the Ezlo Plus controller. This smart home automation controller handles all communication and coordination between your Z-Wave, Zigbee, and Wi-Fi connected devices. Experience faster communication, more reliable performance, and increased efficiency and versatility within your smart home network. Additionally, the EzloPlus supports universal voice control through the Ezlo VOI platform, a powerful, patent-pending platform that consolidates control of all of your automated devices associated with Amazon Alexa. We also support Siri shortcuts and Google Assistant.

For more information, please contact your Ezlo Sales representative or email sales@ezlo.com.
